

Baaske Tough-PAC® for iPad 10,9" and iPad AIR 10,9"

Baaske Tough-PAC®

The Tough-PAC® is an antimicrobial hard case & docking system for the iPad 10.9" and iPad Air 10.9". It has been specially developed for use in healthcare or other hygienically sensitive environments and offers all-round protection against damage in the workplace, impacts, liquids and theft. For smooth continuous operation, the Tough-PAC® offers Simply-Dock® charging station, multi-docks and VESA mounts that eliminate the need to plug in cables for routine charging or synchronization functions. The BaaskeTough-PAC® can be equipped with an included antibacterial and hardened screen protector that provides 360° protection against potentially harmful surface contamination. The Tough-PAC® protective covers for the iPad are easy to use and offer safety, ease of use and low maintenance.

Benefits:

- Anti-microbial hard shell protection for iPad
- Easy to clean
- Protects against ingress of dust & fluids, IP53+
- Shock protection
- Simply-Dock® cradles for charging & sync

Equipment

Baaske Tough-PAC® Charging station

The Tough-PAC® charging station enables simultaneous charging, synchronization and working with the iPad. The Tough-PAC® does not need to be removed from the tablet or connected to additional cables. Can also be used as a tablet computer workstation.

- Biomaster antimicrobial technology
- Simply Dock technology
- Can be used in landscape or portrait mode
- Cleaning with antimicrobial wipes or sprays
- USB-C connection - charge & synchronize
- 0.8 m USB 2.0 cable or USB-C cable
- 85% recyclable materials
- Tough-Pac hard case not included in the scope of delivery

USB- C Art.-Nr. 2013047

The Apple iPad USB-C power adapter or an equivalent 20W power adapter is required for charging.

Baaske Tough-PAC® Multiload

The Multiload uses the „Simply Dock“ interface technology and enables the simultaneous charging or synchronization of up to 4 Tough PAC units. For IT management, the Multiload has its own optimized USB hub, which enables data management via USB for up to 4 iPads simultaneously and provides an optimal power supply for charging. The Tough-Pac charging station does not include the Tough-Pac hard-shell cases.

- Simultaneous charging of up to 4 devices
- Simply-Dock® USB interface technology
- Can be cleaned with damp antimicrobial wipes or sprays
- LED indicators for the charging status of the device
- Use, dock and remove - no cables to connect to devices
- 90%+ recyclable materials
