

Tough-PAC® in green LIMITED EDITION*

Tough-PAC®

The Tough-PAC® is an antimicrobial hard-shell case and docking system for the 10.9" and 11" iPad. It has been specially developed for use in the healthcare sector or other hygiene-sensitive environments and offers all-round protection against workplace damage, impacts, liquids and theft. To ensure smooth, continuous operation, the Tough-PAC® features Simply-Dock® mounts, multi-docks and VESA mounts, which eliminate the need to plug in cables for routine charging or synchronisation functions. The Tough-PAC® can be fitted with a supplied antibacterial, tempered protector, which offers 360° protection against potentially harmful

glass screen surface contamination.

The Tough-PAC® protective cases for the iPad are easy to use and offer security, user-friendliness and low maintenance.

Benefits:

- Antimicrobial hard-shell case for 10.9-inch and 11-inch iPads
- Can be easily cleaned with wipes and sprays
- Protection for all ports and buttons against dust and liquids
- Impact protection
- Simply-Dock docking station for charging and data synchronisation
- Replaceable, antibacterial protective film made of tempered glass
- With carrying handle (Lift and Use)

All-round protection with additional features
