

Baaske ST Laser Mouse

Baaske ST Laser Mouse

The hygienic Baaske ST - laser mouse convinces with a maximum precision of 1500 dpi on nearly every surface. It is the ideal input device for medical and industrial environments, as well as areas where infection procedures must be taken into account or work with liquids. With a total of two buttons and a touch scroll function, the ergonomic Baaske ST - Laser Mouse offers pleasant and comfortable operation. In addition, the housing of the Baaske ST - mouse is silicone-coated and joint-free. This allows a quick and easy cleaning and also prevents the ingress of fluids or dust according to IP 68.

Benefits:

- Fully sealed
- Free of interspaces
- Water and dust-proof (IP68)
- Comfortable touch-scroll-function
- Laser sensor for maximum precision on nearly every surface

Baaske ST Laser Mouse,
for sensitive areas where
hygiene is a must.
